

The Knowledge of Languages - a World without Borders

2020-1-LV01-KA201-077558

NO BORDERS

Observation Form

This Form has been prepared to determine the student development status for the early age language teaching project within the scope of the "No Borders" KA201 project. The methodology to be followed for the application of the form;

- 1- It should be implemented at the beginning of the project in order to find out what students know,
- 2-This form should be applied after the implementation of the contents prepared according to the titles determined for the project, at the end of each theme.
- 3-Since the students are illiterate, the form must be filled in by the teachers.
- 4- More than one application of the form is important in terms of determining that the themes are permanent and the contents are learned by the students.
- 5-Put a check mark under the icons determined according to the realization situation of each acquisition.
- 6- The achievement level of students will be expressed with symbols.
